ALUMINIUM ROOF LANTERNS

With contemporary style, sleek lines and fitter-friendly qualities, our latest generation of roof lantern has everything required for modern renovations.

Designed by experts, our exclusive roof lantern boasts excellent thermal and energy efficiency values, making it a fantastic investment for modern-day homeowners.

It's slimline rafters maximise visibility, allowing for an abundance of natural light to flood the room from above. The extra light and added ceiling height not only brightens a room, but also opens up the space, making the sky the limit!

AT A GLANCE...

- Advanced weatherproofing thanks to GUARD-Lock technology
- Marine-grade powder coating with dual colours available
- Toughened glass as standard
- Unique slimline glazing enclosure for maximum safety and security
